Don't you wish you could bottle that energy? That enthusiasm! That creativity. That zest for life.

If only we had a way of holding onto that spark.

At Building Kidz Schools, we believe in developing kids by harnessing the power of that spark. By nurturing it.

With a serious curriculum that's rooted in fun and in exploring kids' naturally artistic side, we help them grow.

In a world where facts are literally at our fingertips, what's needed isn't teaching kids to memorize more facts. What's needed is to teach them how to imagine, how to dream, how to create, and how to think.

That's exactly what we do every day.

Your kids will sing, dance, create, and have fun.

And all the while they'll be learning skills that will serve them throughout their whole lives.

Because we're not just building kids, we're building people.

Enroll them in a school that's more than just a school. Send them to a place that will harness their superpowers.

Help get life back to normal for your kids. Enrolling now.

Inspire Kids Montessori

Singing. Dancing. Making faces.

At Building Kidz Schools, we believe in developing kids by harnessing the power of their imagination. By nurturing it.

We feature a serious curriculum that's rooted in fun.

As kids explore and express their naturally artistic side, we help them grow.

In today's connected world, facts are literally at our fingertips.

Kids don't need to memorize more facts so much as they need to learn how to imagine, how to dream, how to create, and how to think.

That's what we strive to do every day.

Your children will sing, dance, create, and have fun.

All while learning skills that will serve them throughout their lives.

Because we're not just building kids, we're building people.

Enroll them in a school that's more than just a school. Send them to a place that will teach them to express themselves.

Inspire Kids Montessori

When you look at your kids, what do you see?

A superhero?

A starlet?

An artist?

At Building Kidz Schools, we see all those things and more.

Not just see it, everything we do is built around nurturing it.

With a serious curriculum that's rooted in fun and in exploring kids' naturally artistic side, we help them grow. We teach them how to imagine, how to dream, how to create, and how to think.

For us, teaching children through fun is serious business.

They will sing, dance, paint, create, and build.

And all the while they'll be learning skills that will serve them throughout their whole lives.

Because we're not just building kids, we're building people.

Enroll them in a school that's more than just a school. Send them to a place that sees them for who they are and cherishes them for who they will become.

Caribbean? No.

Sri Lanka

Kenya? No.

Sri Lanka

Sri Lanka (13.3%) has about the same % of total landmass set aside for conservation and parkland as the U.S. (13.4%).

Minnesota? No.

Sri Lanka

Torrey Pines? No.

Sri Lanka

Royal Colombo Golf Club has been in operation for 129 years!

China? No.

Sri Lanka

Sri Lanka was known as Ceylon when it was part of the British Empire.

Ceylon tea is considered among the best and Sri Lanka is still among the world's leading exporters of tea.

Peru? No.

Sri Lanka

Sri Lanka's highest peak stands at 8,281ft. (That's higher than 36 US states.)

Bahamas? No.

Sri Lanka

Sri Lanka is more than just beautiful. It has over a 91% literacy rate with both men and women being comparable in both literacy and years of schooling.

New Mexico? No.

Sri Lanka

Africa? No.

Sri Lanka

Sri Lanka is still a relatively unspoiled wilderness. In fact, the U.S. has:

- 4 times more cars per square mile
- 30 times more cars per capita

(Don't worry, it's still very easy to get around.)
